

DEVICE COMPLIANCE POLICY

Creating the Policy

1. From Microsoft 365 Admin, Admin Center select [Endpoint Management](#).
2. Expand the collapsed menu on the left and select **Devices > Compliance policies** > Click **+Create Policy** to create a policy
3. Specify the following properties:
 - **Name:** **Windows 10 compliance poicy**, press Enter (should be policy) but type name as seen
 - **Description:** Click in the description box and type **restrictions for windows 10**
 - **Platform:** Choose the platform of your devices. Your options: (choose **Windows 10 and later**)
 - **Android device administrator**
 - **Android Enterprise**
 - **iOS/iPadOS**
 - **macOS**
 - **Windows Phone 8.1**
 - **Windows 8.1 and later**
 - **Windows 10 and later**

If you had chosen *Android Enterprise*, you would have to select a **Profile type**:

- **Device owner**
- **Work Profile**

- **Settings:** For settings click on Device Health to view the options, then close the **Device Health** window.
- Click on Device Properties to view the options, then close the **Device Properties** window.
- Follow the same steps for **Configuration Manager Compliance**
- Select **System Security**. For the option **Require a password to unlock mobile device**, select **Require**.
- Select **Block** for **Simple password**
- For **minimum password length** type **8**, then press Enter.
- For **maximum** minutes of inactivity before password is required, press the down arrow and leave as is.
- Click on the NEXT navigation tab at the bottom of your screen to continue
- In the screen that appears type **30**. 30 is the password expiration in days.
- Click the down arrow twice and select **Require** for **Defender Antimalware minimum version**. Also select **Require** for **Defender Antimalware security intelligence** and **Realtime protection**
- When done click on the down arrow and select **OK** twice
- Select **Actions for non-compliance**
- Click on **ADD**, select the dropdown by **send email to user**, and choose **remotely lock the non-compliant device**
- *(Wait for the click and drag action)* Type 1 in the screen provided **for Schedule days after non-compliance**
- Click on **Add** then select **OK**
- Select **Scope tag**, click on **Add**, Choose **Default**. Click on **Select** and **OK**
- Click on **Create**

ASSIGN THE POLICY

- Under **Manage** select **Assignments**. Click the down arrow by **selected groups, selected groups again** and then **click selected groups to include**

-
- Select the **AC All Company** group
- Click on **Select** to accept that group
- Click on Save, then close the window.
-
