Protection settings

Configure the settings for this anti-malware policy

Protection s

The specified file types are automatically identified as malware in email messages

Enable the common attachments filter

.ace, .ani, .app, .docm, .exe, .jar, .reg, .scr, .vbe, .vbs

Customize file types

Malware ZAP quarantines messages that are found to contain malware after the messages have been delivered to Exchange Online mailboxes

Enable zero-hour auto purge for malware (Recommended)

Quarantine policy

Permission to release quarantined messages will be ignored for messages with malware detected

Notification

Recipient notifications

Notify recipients when messages are quarantined as malware

Sender notifications

- [ ] Notify internal senders when messages are quarantined as malware
- [x] Notify external senders when messages are quarantined as malware

Admin notifications

- [ ] Notify an admin about undelivered messages from internal senders
- [ ] Notify an admin about undelivered messages from external senders

Customize notifications

- [ ] Use customized notification text ⓘ
